Independent Auditors' Report

Community Mental Health for Central Michigan
Mt. Pleasant, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Community Mental Health for Central Michigan as of and for the year ended September 30, 2006, which collectively comprise the Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Community Mental Health for Central Michigan's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Community Mental Health for Central Michigan as of September 30, 2006 and the respective changes in financial position for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The financial statements include partial prior-year comparative information. Such information does not include all of the information required to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Authority's financial statements for the year ended September 30, 2005, from which such partial information was derived.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 3, 2007, on our consideration of Community Mental Health for Central Michigan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information identified in the table of contents are not a required part of the basic financial statements but are supplemental information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Community Mental Health for Central Michigan's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financials statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Community Mental Health for Central Michigan

Management's Discussion and Analysis

September 30, 2006

The management of Community Mental Health for Central Michigan (CMHCM) presents the following overview and analysis of financial activities during the past fiscal year. CMHCM was created as a Mental Health Authority on October 1, 2001 by the joint action of Boards of Commissioners for the Michigan counties of Clare, Gladwin, Isabella, Mecosta, Midland, and Osceola. CMHCM is the successor organization to two separate mental health authorities, Midland-Gladwin Community Mental Health Services and Central Michigan Community Mental Health Services.

Overview of the Financial Statements

Two types of financial statements are provided: Government-wide Statements and Fund Statements.

The government-wide financial statements are designed to provide readers with a broad overview of the organization's finances in a manner similar to a private sector business.

The Statement of Net Assets presents information of all of CMHCM's assets and liabilities with the difference between assets and liabilities being reported as net assets. Changes in net assets serve as a useful indicator in determining whether the financial position is improving or deteriorating.

The Statement of Activities presents information showing how net assets changed during the fiscal year. Reporting of activities is on an accrual basis meaning that the change in net assets is reported as soon as the underlying event giving rise to the change occurs regardless of the timing of the related movement of cash.

The fund financial statements report groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. CMHCM, as a governmental authority, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. These funds are divided into two categories: governmental funds and proprietary funds.

Governmental funds has a narrower focus than that of the government-wide financial statement in that its focus is on the short-term movement of spendable resources and on the balances of spendable resources available at the end of the fiscal year.

Proprietary funds are internal service funds which are held as a self-insurance against future risk. These funds consist of state of Michigan Medicaid and accumulated interest that must be held for future risk or used to provide authorized services to eligible persons.

Capital assets	<u>1,275,702</u>	<u>1,079,454</u>	<u>196,248</u>
Total assets	<u>\$ 18,409,690</u>	<u>\$ 16,894,962</u>	<u>\$ 1,514,728</u>

Community Mental Health for Central Michigan
Management's Discussion and Analysis
September 30, 2006

	<u>2006</u>	<u>2005</u>	<u>Increase (Decrease)</u>
Liabilities			
Payables and accrued payroll	\$ 5,738,157	\$ 5,377,482	\$ 360,675
Compensated absences	<u>881,996</u>	<u>907,930</u>	<u>(25,934)</u>
 Total liabilities	 <u>6,620,153</u>	 <u>6,285,412</u>	 <u>334,741</u>
Net Assets			
Capital assets	1,275,702	1,079,454	196,248
Internal Service Funds	798,061	835,485	(37,424)
Unrestricted	<u>9,715,774</u>	<u>8,694,611</u>	<u>1,021,163</u>
 Total net assets	 <u>11,789,537</u>	 <u>10,609,550</u>	 <u>1,179,987</u>
 Total liabilities and net assets	 <u>\$ 18,409,690</u>	 <u>\$ 16,894,962</u>	 <u>\$ 1,514,728</u>

The above table regroups and summarizes Assets, Liabilities, and Fund Balances for the agency as a whole including internal service funds. Please note the following:

1. The increase in the value of capital assets is in large part due to the remodeling of the Mode residence. This was accomplished with the help of a substantial grant from the Dow Foundation.
2. Prior to fiscal 2005, CMHCM had a policy of maintaining and increasing internal service funds as a part of its overall risk management strategy. This was done with the contractual consent and encouragement of the Department of Community Health. During fiscal 2005 management became aware of a shift in departmental attitude toward Internal Service Funds from viewing them as prudent risk management tools to looking upon them as evidence of over funding. This led to management's decision to phase out internal service fund arrangements and maintain any fund balances in-house.

Community Mental Health for Central Michigan
Management's Discussion and Analysis
September 30, 2006

3. Liabilities are short term (generally less than 90 days). CMHCM has long maintained a practice of not borrowing money.

Revenues 2006	\$65,427,831
Revenues 2005	62,591,547
Increase	2,836,284
Percent Increase	4.53%
Expenses 2006	\$64,574,431
Expenses 2005	62,901,431
Increase	1,673,000
Percent Increase	2.66%

The table above indicates the change in operating revenues and expenses from 2005 to 2006. Revenues increased at a higher percentage rate than did expenses. Much of the revenue increase was an economic increase in the Medicaid capitation rate.

Expenses were held to less than 3% during the year. This is as a result of continued cost controls by management particularly in the area of staffing. Executive leadership reviews all staff positions which become vacant to consider restructuring, consolidation, or elimination. At the end of 2005 the staffing table had 350 full time equivalents. At the end of 2006 the staffing table listed 340 full time equivalents.

Budgets

	ORIGINAL BUDGET	FINAL BUDGET	ACTUAL
Total revenues	\$64,641,266	\$64,993,928	\$65,427,831
Total expenses	66,134,977	66,134,977	64,574,431
Revenues over (under) expenditures	\$ 1,493,711)	\$(1,141,049)	\$ 853,400

The original operations budget for fiscal 2006 predicted an excess of revenues over expenditures of \$1,493,711. The agency actually realized an excess of revenues over expenditures of \$853,400. The reason for this large discrepancy between budget and actual is almost exclusively the success of management in controlling costs.

Community Mental Health for Central Michigan
Management's Discussion and Analysis
September 30, 2006

Strength of Financial Position

The chart below shows changes in the agency's financial position for the past two years. Please note the following:

The number at the bottom of the table labeled "days of operations" represents the number of days the agency could operate at its current level while it received no outside revenue. CMHCM maintains a policy that this number should always exceed 30 days of zero revenue operations.

Risk Reserves	Balance at 9/30/2004	Increase (Decrease)	Balance at 9/30/2005	Increase (Decrease)	Balance at 9/30/2006

Management's Discussion and Analysis
September 30, 2006

About the Future

As we begin fiscal 2007, the State of Michigan is in a budget crisis of mammoth proportions. Estimated revenue shortfalls for the coming years exceed \$1 billion. According to the governor's office, the outlook for the next three to five years continues to be bleak. At this writing the legislature is considering a combination of revenue enhancements and spending controls. It is unlikely that the Mental Health system will be spared from some sort of budget cut. Management's guess of the impact on CMHCM is that the cut will come to State General Fund revenue and will be between \$800,000 and \$1.6 million. Because of reserves, CMHCM will not have to react with panic to a revenue reduction of this magnitude, but will continue to look for more efficient ways to serve people.

Community Mental Health for Central Michigan
Reconciliation of the Statement of Revenues, Expenditures and Changes in
Fund Balances of Governmental Funds to the Statement of Activities
Year Ended September 30, 2006

Net change in fund balances - total governmental funds	\$ 995,229
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.	
Add: capital outlay	374,492
Deduct: depreciation expense	(178,244)
An internal service fund is used by management to cover the risk of overspending the Managed Care Specialty Services Program contract. The net revenue (expense) of the fund attributable to those funds is reported with government activities.	(37,424)
Some expenses reported in the Statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the funds.	
Add: decrease in accrual for compensated absences	<u>25,934</u>
Change in net assets of governmental activities	<u><u>\$ 1,179,987</u></u>

Notes to Financial Statements

September 30, 2006

Note 1 - Summary of Significant Accounting Policies

The accounting policies of the Community Mental Health for Central Michigan (the Authority) conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the significant accounting policies used by the Authority.

Reporting Entity

The Authority operates as a Community Mental Health Authority under the provisions of Act 258 – Public Acts of 1974, as amended. The Authority provides funding for services in the areas of mental illness, developmental disabilities, and other related mental health needs for residents of Isabella, Mecosta, Osceola, Clare, Midland and Gladwin Counties.

The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the Authority's reporting entity, and which organizations are legally separate, component units of the Authority. Based on the application of the criteria, the Authority does not contain any component units.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the Authority. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-

type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include charges to consumers who purchase, use or directly benefit from services provided by a given function. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Other items not properly included among program revenues are reported instead as general revenues. Resources that are dedicated internally are reported as general revenues rather than as program revenues.

Net assets are restricted when constraints placed on them are either externally imposed or are imposed by constitutional provisions or enabling legislation. Internally imposed designations of resources are not presented as restricted net assets. When both restricted and unrestricted resources are available for use, generally it is the Authority's policy to use restricted resources first, then unrestricted resources as they are needed.

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statements Presentation

Government-Wide Financial Statements – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Community Mental Health for Central Michigan

Notes to Financial Statements

September 30, 2006

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental Fund Financial Statements – The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Authority considers revenues not related to charges for service to be available if they are collected within 60 days of the end of the current fiscal year end. Charges for service revenues are considered available upon the occurrence of the event. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Modifications to the accrual basis of accounting include:

- Employees' vested annual leave is recorded as expenditures when utilized. The amount of accumulated annual leave unpaid at September 30, has been reported only in the government-wide financial statements.

Proprietary Fund Financial Statements – The financial statements of the proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting, similar to the government-wide statements described above.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, are followed to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The principal operating revenues of the internal service fund are charges to other funds for insurance services. Operating expenses for internal service funds include the cost of claims, administration and reinsurance. Any revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Fund Accounting

The financial statements of the Authority are recorded in individual funds, each of which is deemed to be a separate accounting entity. The Authority uses fund accounting to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

The Authority reports the following major governmental and proprietary funds:

Governmental Funds

General Fund – This fund is the Authority's primary operating fund. It accounts for all financial resources of the Authority, except those required to be accounted for in other funds.

Proprietary Funds

Internal Service Fund – These funds represent amounts set aside to fund the net uninsured exposure of potential shortfalls of contract revenues.

Community Mental Health for Central Michigan

Notes to Financial Statements

September 30, 2006

Comparative Data

The comparative information for the year ended September 30, 2005 is not intended to be a complete financial statement presentation. Also, certain amounts presented in the prior year may have been reclassified in order to be consistent with the current year's presentation.

Budgetary Data

Budgets are adopted by the Authority for all governmental funds. The budget is adopted and prepared on the modified accrual basis of accounting. The budget is also adopted at the functional level. The budgeted revenues and expenditures for governmental fund types, as presented in this report, include any authorized amendments to the original budget as adopted.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Authority's cash and cash equivalents are considered to be cash on hand, money market funds, demand deposits and short-term investments.

Receivables and Payables between Funds

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e. the non-current portion of interfund loans). Any residual balances outstanding between the governmental activities are reported in the government-wide financial statements as "internal balances".

Receivables

Accounts receivable in all funds report amounts that have arisen in the ordinary course of business and are stated net of allowances for uncollectible amounts.

Interest receivable represents amounts due the Authority for certificates of deposit that have not yet matured.

Due from other governmental entities consist primarily of amounts due from the Michigan Department of Community Health and the State of Michigan.

Inventories

The Authority does not recognize as an asset inventories of supplies. The cost of these supplies is considered immaterial to the financial statements and the quantities are not prone to wide fluctuation from year to year. The costs of such supplies are expensed when purchased.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted Assets

Cash has been restricted for future payment of the compensated absences liability and risk management. These restricted assets are held in separate cash accounts with local financial institutions.

Capital Assets

Capital assets, which include property, plant and equipment, are reported in the governmental column in the government-wide financial statements. Capital assets are defined by the government as individual assets with an initial cost equal to or more than \$ 5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or

Community Mental Health for Central Michigan
Notes to Financial Statements
September 30, 2006

constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

The Authority does not have infrastructure type assets.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction of capital assets is not capitalized. No interest expense was incurred during the current year.

Capital assets utilized in the governmental funds are recorded as expenditures in the governmental fund financial statements. Depreciation expense is recorded in the government-wide financial statements.

Capital assets of the Authority are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Equipment and furnishings	3 – 7
Computers	2 – 5
Automobiles	5
Buildings and improvements	7 – 30
Land	Not applicable – not depreciated

Inpatient Liability

The amount recorded for inpatient liability is based on management's estimate. This estimate is based on (1) the number of clients at each facility, (2) the number of days each client is at each facility, and (3) the daily rate charged for each facility.

The Authority does not receive actual billings for these services until several months after the service date. Therefore, the liability is not liquidated within the normal 60 day period after year end. Also, the actual cost may vary from the estimated amount due to reimbursements from third parties that are applied to the total cost before the billings are sent to the Authority.

Deferred Revenue

Deferred revenues arise when resources are received by the Authority before it has a legal claim to them. In subsequent periods, when the revenue recognition criterion is met, or when the Authority has a legal claim to the resources, the liability for deferred revenue is removed from the fund financial statements and government-wide financial statements, and revenue is recognized.

Compensated Absences

The Authority allows employees to carryover into the following year, any unused, paid time off, up to a maximum of 280 hours. All regular full time employees accrue annual leave on a per-pay basis. Amounts accrued vary depending on the employee's length of service with the Authority. Upon termination of employment, annual leave balances are paid at the current rate of pay. The governmental fund financial statements record expenditures when employees are paid for leave. The government-wide financial statements present the cost of accumulated vacation leave as a liability. There is no liability for unpaid sick leave since the Authority does not have a policy to pay this amount upon termination of employment.

Governmental Fund – Fund Balance Reserves and Designations

The governmental fund financial statements present fund balance reserves for those portions of fund balance (1) not available for appropriation for expenditure or (2) legally segregated for a specific future use. The reserves for related assets such as prepaid items are examples of the former. Reserves for Medicaid Savings, compensated absences and post employment benefits are examples of the latter.

Community Mental Health for Central Michigan
Notes to Financial Statements
September 30, 2006

Note 2 - Stewardship, Compliance and Accountability

Excess of Expenditures over Appropriations

During the year ended September 30, 2006, the Authority did not incur expenditures in excess of the amounts appropriated in the General Fund, except for capital outlay which exceeded the budget by \$364,753.

Note 3 - Deposits and Investments

Interest rate risk – The Authority manages its exposure to declines in fair value by keeping investments sufficiently liquid to meet all operating requirements that may be reasonably anticipated.

Credit risk – State statutes and the Authority's investment policy authorize the Authority to deposit and invest in the accounts of Federally insured banks, credit unions, and savings and loan associations; bonds, securities and other direct obligations of the United States, or any agency or instrumentality of the United States; United States government or Federal agency obligations repurchase agreements; bankers' acceptance of United States banks; commercial paper rated by two standard rating agencies within the two highest classifications, which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan. Financial institutions eligible for deposit of public funds must maintain an office in Michigan. The Authority's deposits are in accordance with statutory authority.

Concentration of credit risk – The Authority's investment policy requires diversification by security type and institutions in order that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio.

Custodial credit risk – deposits – In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The Authority believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all bank deposits. As a result, the Authority evaluates each financial institution with which it deposits government funds and assesses the level of risk of each institution. Only those institutions with an acceptable estimated risk level are used as depositories. At year end, \$ 14,853,752 of the Authority's bank balance of \$ 15,169,333 was exposed to credit risk, because it was uninsured and uncollateralized.

Interfund Receivables and Payables

The amount of interfund receivables and payables at September 30, 2006 are as follow:

	<u>Due from Other Funds</u>	<u>Due to Other Funds</u>
General Fund	\$ 141,829	\$ -
Internal Service Fund	<u>-</u>	<u>141,829</u>
Totals	<u>\$ 141,829</u>	<u>\$ 141,829</u>

The outstanding balances between funds result mainly from the time lag between transactions are recorded in the accounting system and payments between funds are made.

Interfund Transfers

The Risk Management Fund will transfer \$141,829 to the General Fund as allowed by the Department of Community Health contract during the fiscal year ended September 30, 2006.

Community Mental Health for Central Michigan
Notes to Financial Statements
September 30, 2006

Note 4 - Due from Other Governmental Units

As of September 30, this receivable consisted of the following:

	2006	2005
Department of Community Health		
OBRA Grant	\$ 100,050	\$ 72,488
Juvenile Justice Grant	10,262	12,517
Midland County Educational Service		
Agency - Early On Grant	48,157	41,060
Other governmental units	99,564	180,568
	<u>\$ 258,033</u>	<u>\$ 306,633</u>

Note 5 - Changes in Fixed Assets

A summary of changes in capital assets is as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets not being depreciated				
Land	\$ 230,000	\$ -	\$ -	\$ 230,000
Capital assets being depreciated				
Buildings and improvements	753,403	168,269	-	921,672
Equipment and furnishings	960,880	43,147	64,795	939,232
Computers	642,057	45,421	-	687,478
Vehicles	625,884	117,655	101,948	641,591
Total capital assets being depreciated	<u>2,982,224</u>	<u>374,492</u>	<u>166,743</u>	<u>3,189,973</u>
Less accumulated depreciation for				
Buildings and improvements	189,775	34,168	-	223,943
Equipment and furnishings	805,004	56,389	64,795	796,598
Computers	575,423	47,817	-	623,240
Vehicles	562,568	39,870	101,948	500,490
Total accumulated depreciation	<u>2,132,770</u>	<u>178,244</u>	<u>166,743</u>	<u>2,144,271</u>
Net capital assets being depreciated	<u>849,454</u>	<u>196,248</u>	<u>-</u>	<u>1,045,702</u>
Capital assets, net	<u>\$ 1,079,454</u>	<u>\$ 196,248</u>	<u>\$ -</u>	<u>\$ 1,275,702</u>

Depreciation expense was charged to the Health & Welfare – Mental Health Program.

Note 6 - Due to Other Governmental Units

As of September 30, this liability consists of the following:

	2006	2005
Michigan Department of Community Health		
State Institutions	\$ 321,528	\$ 709,144
Quality Assurance Assistance Program (QAAP)	813,575	-
	<u>\$ 1,135,103</u>	<u>\$ 709,144</u>

Note 7 - Long Term Liabilities

The changes in long term liabilities during the 2006 fiscal year are as follows:

	Beginning Balance	Additions	Decreases	Ending Balance
Governmental activities				
Compensated absences	\$ 907,930	\$ -	\$ (25,934)	\$ 881,996

Leases

The Authority has entered into various operating leases for the use of real and personal property. Operating leases do not give rise to property rights or lease obligations, and therefore, the lease agreements are not reflected in the financial statements. Lease expense for the fiscal year was approximately \$1.5 million.

At September 30, the Authority was committed, subject to cancellation provisions, for rental payments under operating leases as follows:

Year Ending September 30,	Amount
2007	\$ 1,497,395
2008	1,408,300
2009	1,260,607
2010	1,107,997
2011	178,128
2012-2016	146,868
	<u>\$ 5,599,295</u>

Community Mental Health for Central Michigan
Notes to Financial Statements
September 30, 2006

Note 8 - Other Information

Compliance Audits

All governmental grants are subject to a transactional and compliance audit by the grantors or their representatives. Therefore, an indeterminable contingency exists for expenditures, which may be disallowed by the granting agencies.

Note 9 - Risk Management

Michigan Municipal Risk Management Authority

The Authority purchased coverage with Philadelphia Insurance Companies through Buiten and Associates, LLC. The coverage includes the following:

- Blanket Building & Content, Equipment and Crime Coverage ranging from \$10,000 to \$10,000,000 with \$500 and \$2,500 deductibles.
- Liability coverage including Commercial, Professional, Sexual Abuse/Molestation and Auto ranging from \$100,000 to \$3,000,000 with deductibles of \$500 and \$1,000.
- Directors & Officers/Employment Practices Liability ranging from \$25,000 to \$5,000,000.
- Commercial Umbrella with an annual aggregate of \$10,000,000

Internal Service Funds

The Authority has established an Internal Service Funds to cover the risk of overspending the Managed Care Specialty Services Program contract. This contract provides for the use of Department of Community Health funding for the establishment of Internal Service Funds. Expenditures from the Internal Service Fund will occur when, in any one fiscal year, the Authority finds it necessary to expend more funds to carry out the contract requirements than revenue provided by the contract.

Employee Retirement and Benefit Systems

Plan Description – The Authority participates in the Michigan Municipal Employees Retirement System (MERS), an agent multiple-employer defined benefit pension plan that covers all of the Authority's regular full-time employees. The system provides retirement, disability and death benefits to plan members and their beneficiaries. MERS issues a publicly available financial report that includes financial statements and required supplementary information for the system. That report may be obtained by writing to Gabriel, Roeder, Smith & Company, One Towne Square, Suite 800, Southfield, Michigan 48076.

The most recent period for which actuarial data was available was for the year ended December 31, 2005. The Authority's payroll for the employees covered by the system for the year ended December 31, 2005 was \$ 12,116,184.

As of December 31, 2005, employee membership data related to the pension plan was as follows:

Retirees and beneficiaries currently receiving benefits	68
Active plan participants	301
Vested former members	<u>94</u>
Total	<u>463</u>

Funding Policy – If a member leaves the Authority or dies, without a retirement allowance or other benefit payable on his/her account, his/her accumulated contributions will be refunded to him/her, if living, or to his/her nominated beneficiary.

Benefit programs and provisions are established by the Retirement Board. All benefits vest after 10 years of service, except that benefits may vest after eight or six years of service if adopted by the municipality's governing body. The standard retirement age is 60 years; however, members may retire with several combinations of

Community Mental Health for Central Michigan

Notes to Financial Statements

September 30, 2006

age and years of service and receive reduced early retirement benefits. Municipalities may adopt various other benefit programs which allow retirement at an earlier age with unreduced benefits based upon combinations of age and years of service, or just years of service. MERS also provided non-duty disability and death benefits to members after vesting requirements are met.

Funding Status and Progress – The amount shown below as the “pension benefit obligation” is based on the standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and separate benefits, estimated to be payable in the future as a result of employee services to date. The measure is the actuarial present value of credited projected benefits and is intended to (1) help users assess the plan’s funding status of the system on a going-concern basis; (2) assess progress made in accumulating sufficient assets to pay benefits when due; and (3) make comparisons among public employee retirement plans. The measure is independent of the actuarial funding method used to determine contributions to the plan.

The pension benefit obligation was determined as part of an actuarial valuation of the plan as of December 31, 2005. Significant actuarial assumptions used in determining the pension benefit obligation include (1) a rate of return on the investment of present and future assets of 8.0% and (2) projected salary increases of 4.5% per year plus a percentage based on an age-related scale to reflect merit, longevity and promotional salary increases.

At December 31, 2005, the assets were less than the pension benefit obligation by \$ 2,995,859, determined as follows:

Actuarial Accrued Liability

Retirees and beneficiaries currently receiving benefits	\$ 9,876,700
Terminated employees not yet receiving benefits	3,112,998
Nonvested terminated employees	22,458
Current employees	
Accumulated employee contributions including	
allocated investment income	988,610
Employer financed	<u>19,789,848</u>
 Total actuarial accrued liability	 33,790,614
 Net assets available for benefits at actuarial value	
(market value = \$ 29,983,287)	<u>30,794,755</u>
 Unfunded actuarial accrued liabilities	 <u>\$ 2,995,859</u>

Additional Information

Fiscal year beginning	October 1, 2007
Annual required contribution (ARC)	\$ 1,312,176
Amortization factor used - under-funded liabilities (30 years)	0.053632

Three year trend information follows:

Date	Assets	Liability	(UAAL)	Ratio	Payroll
12/31/03	\$ 26,001,783	\$ 29,470,598	\$ (3,468,815)	88%	28%
12/31/04	28,376,998	31,372,697	(2,995,699)	90%	24%
12/31/05	30,794,755	33,790,614	(2,995,859)	91%	25%

Health Insurance Benefits

In addition to providing pension benefits through MERS, the Authority, in accordance with agreements with MERS, provides post employment health insurance benefits to certain employees.

A defined benefit Health Savings Program has been established with MERS for employees that retire on or before October 1, 2004. As of September 30, 2006, there were 29 retired individuals eligible to receive benefits under this program. The retirees are required to pay for a portion of their health care costs based on their age and years

Community Mental Health for Central Michigan
Notes to Financial Statements
September 30, 2006

of service at retirement. The Authority also pays a portion of these costs, with a maximum per retiree benefit of \$ 400 per month.

A defined contribution Health Savings Program has also been established with MERS for certain employees who are not eligible to receive benefits under the above mentioned defined benefit Health Savings Program. Employees of the Authority become eligible for this benefit six years from date of hire, if they work more than 60 hours or more per bi-weekly pay period. As of September 30, 2006 there were 203 employees eligible for the plan. The Authority will contribute a maximum of \$ 60 per month to MERS for each eligible employee who receives this fringe benefit.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Board of Directors
Community Mental Health for Central Michigan
Mt. Pleasant, Michigan

We have audited the financial statements of Community Mental Health for Central Michigan as of and for the year ended September 30, 2006, and have issued our report thereon dated January 3, 2007. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered Community Mental Health for Central Michigan's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Community Mental Health for Central Michigan's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters involving the internal control over financial reporting that we have reported to management of the Authority in a separate letter dated January 3, 2007.

This report is intended solely for the information and use of the Board of Directors, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**Report on Compliance with Requirements Applicable to Each
Major Program and on Internal Control over Compliance
in Accordance with OMB Circular A-133**

Board of Directors
Community Mental Health for Central Michigan
Mt. Pleasant, Michigan

Compliance

We have audited the compliance of Community Mental Health for Central Michigan with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended September 30, 2006. Community Mental Health for Central Michigan's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Community Mental Health for Central Michigan's management. Our responsibility is to express an opinion on Community Mental Health for Central Michigan's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Community Mental Health for Central Michigan's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Community Mental Health for Central Michigan's compliance with those requirements.

In our opinion, Community Mental Health for Central Michigan complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended September 30, 2006.

Internal Control over Compliance

The management of Community Mental Health for Central Michigan is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Community Mental Health for Central Michigan's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the Board of Directors, management, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

January 3, 2007

Executive Board
Community Mental Health for Central Michigan
Mt. Pleasant, Michigan

We have audited the financial statements of Community Mental Health for Central Michigan as of September 30, 2006, and have issued our report thereon January 3, 2007.

In planning and performing our audit, we considered the Council's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control over financial reporting.

Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the specific internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

However, during our engagement we became aware of an opportunity to strengthen internal controls and operating efficiency. We would like to share this matter with you and offer our recommendation.

Payroll Approval

During the course of our audit we noted that after all the payroll information and time has been entered into the system and the final payroll report has been run, there is not an approval process to verify that the report is complete and correct before the checks are run and the direct deposit is performed. We recommend that before the checks are issued and the direct deposit is made, someone independent of payroll processing should scan the payroll report to verify that the report is accurate and that every employee listed on the report is a current employee and that rates appear reasonable.

Vacations

During inquiry of management it was noted that employees are not required to take a mandatory two week break from their regular job responsibilities. Whenever possible we encourage Community Mental health of Central Michigan to cross train employees. Furthermore we recommend that management encourage a mandatory two week vacation for accounting staff, or at least require them to change job responsibilities for a two week period of time. This control will allow the organization to ensure that the job tasks are being performed according to policy. This helps maintain internal controls and reduces the risk of fraudulent activities being undetected. The occasional temporary disassociation of persons in trust from their regular duties to permit other persons to perform their duties for a period of several days while the regular employee is on vacation is a desirable element of a system of checks and balances. Internal control is strengthened when employees do not maintain continuous control over their particular area of responsibility. Also, this policy encourages the desirable practice of cross-training of duties which reduces business interruptions due to employee turnover.

This letter is intended solely for the use of the Board and the administration of the Community Mental Health for Central Michigan and should not be used for any other purpose.

We appreciate the opportunity to serve the Community Mental Health for Central Michigan. Should you have any questions, please contact our office.

Very truly yours,

Yeo & Yeo, P.C.
